## About Ride-Tek MTA

Ride-Tek MTA is a Victorian Motorcycle Training Organisation accredited by VicRoads to issue Motorcycle Learner Permits and Motorcycle Licences in the state of Victoria. We are based in Dandenong, with branches in Springvale, Sale, Bairnsdale and Wangaratta, proudly serving our valued customers statewide.

Our job is to make sure you meet the skills and the legal requirements to obtain your permit or licence. We provide courses seven days a week catering for every level of experience.

Ridetek was originally founded as part of the Transport Driver Training Corporation, over nine years ago.

Ridetek MTA still share their premises with Transport Driver Training at 313 Hammond Rd, Dandenong South.

Under the guidance of co-owners, Mel Baker and Ian Sanders, both long-term active motorcyclists, Ridetek MTA has established itself as one of Victoria's leading providers of motorcycle rider training. Our reputation has been built on safety – the safety of our students is our top priority.

When training with Ride-Tek MTA, you will be taught how to ride a motorcycle safely, not just how to pass the test at the end of the day. This objective is met by the combined experience of Mel, Ian and their team of instructors' which spans far in excess of 65 years. All are still very active and enthusiastic motorcyclists.

## Rider Training

Riding a motorcycle lets you experience an exhilarating sense of freedom and joy. You will feel young, strong and free. Motorcycle rider training at Ride-Tek MTA ensures you meet the skills and the legal requirements to enjoy the ride.

Ride-Tek MTA is fully accredited to issue Motorcycle Learner Permits and Motorcycle Licences in the state of Victoria.

To receive a Motorcycle Learner Permit, you must:

- \* Be at least 18 years of age
- \* Pass the Vicroads knowledge test of Victorian Rider Handbook
- \* Pass the Vicroads knowledge test of Victorian Traffic Handbook (unless you have a car licence)
- \* Pass the Vicroads Motorcycle Learner Permit Riding Test

## Pre-Learner Training

Pre-Learner training is an excellent course to introduce you to motorcycling and just how much of a thrill it can be for you. It is a two hour course that will take you from not having ridden before, to being able to perform basic safety checks; start the motorcycle, ride away changing gears and confidently stop and park the motorcycle.

## Learner Permit Testing

Ride-Tek MTA strongly recommends that you take the appropriate training course before attempting the testing. We have an almost 100% success rate for our course participants. On the other hand, there is a very low success rate for riders who attempt the testing without taking the Ride-Tek MTA training course. Save yourself time, money and inconvenience and get it right the first time by taking a Ride-Tek MTA Training Course.

## Motorcycle Licence Testing

The licence test is made up of two exercises with six tests of skill.

To receive a Motorcycle Licence, you must:

- \* Hold a current Motorcycle Learner Permit.
- \* Pass the Vicroads Motorcycle Licence Skill Test.

The exercises are used to objectively measure the minimum riding skills required of applicants for a motorcycle driver licence. Specifically, it is an off-street test designed to assess basic motorcycle control, turning speed judgement and hazard avoidance skills. You can use your own motorcycle if you wish, as long as it is registered and roadworthy.

\* Both the Learner permit test and the Motorcycle licence test are explained in more detail on our website.

This includes small animations of the exercises in the tests.
